AFR101

Material safety data sheet

1. Chemical product and company information

Archer Pressure Pumping, LLC
10613 W. Sam Houston Pkwy N
Suite 600
Houston, Texas 77079

Tel: 580 670 4036
Fax: 405 285 6165

Product name: AFR101
Product application: Flocculant

NFPA 704M/HMIS Rating

Health: 0 / 1
Flammability: 1 / 1
Instability: 0 / 0
Other:

0 = Insignificant
1 = slight
2 = moderate
3 = high
4 = extreme
* = chronic health hazard

2. Composition/Information on ingredients

Our hazard evaluation has found that this product is not hazardous under 29 CFR 1910.1200.

3. Hazards identification

EMERGENCY OVERVIEW

CAUTION

May cause irritation with prolonged contact.

Do not get in eyes, on skin, on clothing. Do not take internally. Wear suitable protective clothing. Keep container tightly closed. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, wash immediately with plenty of water. Use a mild soap if available. Protect product from freezing. Water in contact with the product will cause slippery floor conditions.

Wear suitable protective clothing, gloves and eye/face protection.

May evolve oxides of carbon (CO_x) under fire conditions. May evolve oxides of nitrogen (NO_x) under fire conditions. Phase separation of the product may occur after prolonged storage. The top phase will be combustible hydrocarbon solvent.

Primary routes of exposure

Eye, skin

Human health hazards - acute

Eye contact

May cause irritation with prolonged contact.

Skin contact

May cause irritation with prolonged contact.

Archer

Date prepared: 2-28-13
Revision date: 2-28-13
Part number: P-308.01
Emergency number: 800-424-9300

AFR101

Material safety data sheet

Ingestion

Not a likely route of exposure. If swallowed a jelly mass may form which in digestion may cause blockage.

Inhalation

Not a likely route of exposure. Repeated or prolonged exposure may irritate the respiratory tract.

Aggravation of existing conditions

A review of available data does not identify any worsening of existing conditions.

Human health hazards - chronic

No adverse effects expected other than those mentioned above.

4. First aid measures

Eye contact

Wipe or blot away excess material with clean cloth or paper towel. Wash affected areas thoroughly with water. If symptoms develop, seek medical advice.

Skin contact

Wipe or blot away excess material with clean cloth or paper towel. Wash affected areas thoroughly with water. If symptoms develop, seek medical advice.

Ingestion

Do not induce vomiting without medical advice. Get medical attention.

Inhalation

Remove to fresh air, treat symptomatically. If symptoms develop, seek medical advice.

Note to physician

Based on the individual reactions of the patient, the physician's judgement should be used to control symptoms and clinical condition. If swallowed a jelly mass may form which in digestion may cause blockage.

5. Fire fighting measures

Flash point

Not flammable

Extinguishing media

Foam, Dry powder, Carbon dioxide, Other extinguishing agent suitable for Class B fires

Unsuitable extinguishing media

Do not use water unless flooding amounts are available.

Fire and explosion hazard

May evolve oxides of carbon (CO_x) under fire conditions. May evolve oxides of nitrogen (NO_x) under fire conditions. Phase separation of the product may occur after prolonged storage. The top phase will be combustible hydrocarbon solvent.

Special protective equipment for fire fighting

In case of fire, wear a full face positive-pressure self contained breathing apparatus and protective suit.

6. Accidental release measures

Personal precautions

Restrict access to area as appropriate until clean-up operations are complete. Use personal protective equipment recommended in Section 8 (Exposure Controls/Personal Protection). Stop or reduce any leaks if it is safe to do so.

Keep people away from and upwind of spill/leak. Ventilate spill area if possible. Ensure clean-up is conducted by trained personnel only. Do not touch spilled material. Have emergency equipment (for fires, spills, leaks, etc.) readily available. Spill may be slippery.

Methods for cleaning up

Archer

Date prepared: 2-28-13
Revision date: 2-28-13
Part number: P-308.01
Emergency number: 800-424-9300

AFR101

Material safety data sheet

Small spills - Soak up spill with absorbent material. Place residues in a suitable, covered, properly labeled container. Wash affected area.

Large spills - Water in contact with the product will create a voluminous, slippery gel. Soak up as thoroughly as possible with inert absorbent material or sawdust. Do NOT hose down area until all possible traces of polymer are removed. Contact an approved waste hauler for disposal of contaminated recovered material. Dispose of material in compliance with regulations indicated in Section 13 (Disposal Considerations).

Environmental precautions

Harmful to aquatic organisms, prevent material from entering sewers or waterways, if drains, streams, soil or sewers become contaminated, notify local authority.

7. Handling & storage

Handling

Do not get in eyes, on skin, on clothing. Do not take internally. Use with adequate ventilation. Do not breathe vapors/gases/dust. Keep the containers closed when not in use. Have emergency equipment (for fires, spills, leaks, etc.) readily available. Ensure all containers are labeled. Stir well prior to use.

Storage conditions

Store in suitable labeled containers. Store the containers tightly closed. Store separately from oxidizers. Protect product from freezing. Store in a cool well ventilated area away from direct sunlight.

8. Exposure controls & personal protection

Occupational exposure limits

This product does not contain any substance that has an established exposure limit.

Engineering measures

General ventilation is recommended. Local exhaust ventilation may be necessary when dusts or mists are generated.

Respiratory protection

Where concentrations in air may exceed the limits given in this section or when significant mists, vapors, aerosols, or dusts are generated, an approved air purifying respirator equipped with suitable filter cartridges is recommended. Consult the respirator / cartridge manufacturer data to verify the suitability of specific devices.

In event of emergency or planned entry into unknown concentrations a positive pressure, full-facepiece scba should be used. If respiratory protection is required, institute a complete respiratory protection program including selection, fit testing, training, maintenance and inspection.

Hand protection

When handling this product, the use of chemical gloves is recommended. The choice of work glove depends on work conditions and what chemicals are handled. Please contact the ppe manufacturer for advice on what type of glove material may be suitable. Gloves should be replaced immediately if signs of degradation are observed.

Skin protection

Wear standard protective clothing.

Eye protection

Wear chemical splash goggles.

Hygiene recommendations

Use good work and personal hygiene practices to avoid exposure. Keep an eye wash fountain available. Keep a safety shower available. If clothing is contaminated, remove clothing and thoroughly wash the affected area. Launder contaminated clothing before reuse. Always wash thoroughly after handling chemicals. When handling this product never eat, drink or smoke.

Human exposure characterization

Based on our recommended product application and personal protective equipment, the potential human exposure is: low

Emergency number: 800-424-9300

AFR101

Material safety data sheet

9. Physical and chemical properties

Physical state	Emulsion
Appearance	Opaque off-white
Odor	Hydrocarbon
Specific gravity	1.03 - 1.07 @ 77 °F / 25 °C
Density	8.6 - 9.0 Lb/gal
Solubility in water	Emulsifiable
Ph (100 %)	8
Viscosity	400 - 1,200 cps @ 77 °F / 25 °C
Freezing point	< -4 °F / < -20 °C
Voc content	274 % EPA method 24

Note: these physical properties are typical values for this product and are subject to change.

10. Stability & reactivity

Stability

Stable under normal conditions.

Hazardous polymerization

Hazardous polymerization will not occur.

Conditions to avoid

Freezing temperatures. Extremes of temperature

Materials to avoid

Addition of water results in gelling. Contact with strong oxidizers (e.G. Chlorine, peroxides, chromates, nitric acid, perchlorate, concentrated oxygen, permanganate) may generate heat, fires, explosions and/or toxic vapors.

Hazardous decomposition products

Under fire conditions: oxides of carbon, oxides of nitrogen

11. Toxicological information

The following results are for the product.

Sensitization

This product is not expected to be a sensitizer.

Carcinogenicity

None of the substances in this product are listed as carcinogens by the international agency for research on cancer (IARC), the national toxicology program (NTP) or the American Conference of Governmental Industrial Hygienists (ACGIH).

Mutagenicity

Not mutagenic in Ames test. Only TA100 strain tested.

Human hazard characterization

Based on our hazard characterization, the potential human hazard is: low.

Archer

Date prepared: 2-28-13
Revision date: 2-28-13
Part number: P-308.01
Emergency number: 800-424-9300

12. Ecological information

Ecotoxicological effects

The following results are for the product, unless otherwise indicated.

Acute Fish Results :

Species	Exposure	Test type	Value	Test descriptor
Rainbow Trout	96 Hrs	LC50	> 1,000 mg/l	1% Aqueous solution of a similar product
Sheepshead Minnow	96 Hrs	LC50	>1,000 mg/l	1% Aqueous solution of a similar product
Fathead Minnow	96 Hrs	LC50	34.3 mg/l	Product
Inland Silverside	96 Hrs	LC50	52.5 mg/l	Product

Acute Invertebrate Results :

Mysid Shrimp (Mysidopsis bahia)	96 hrs	LC50	400 mg/l	1% Aqueous Solution of Product
Daphnia magna	48 hrs	LC50	280 mg/l	1% Aqueous Solution of Product
Daphnia magna	48 hrs	LC50	0.12 - 0.69 mg/l	Similar product tested in clean water

Mobility

The environmental fate was estimated using a level III fugacity model embedded in the EPI (estimation program interface) Suite TM, provided by the US EPA. The model assumes a steady state condition between the total input and output. The level III model does not require equilibrium between the defined media. The information provided is intended to give the user a general estimate of the environmental fate of this product under the defined conditions of the models.

If released into the environment this material is expected to distribute to the air, water and soil/sediment in the approximate respective percentages;

Air	Water	Soil/Sediment
<5%	10 - 30%	70 - 90%

Bioaccumulation potential

This preparation or material is not expected to bioaccumulate.

Environmental hazard and exposure characterization

Based on our hazard characterization, the potential environmental hazard is: Moderate

Based on our recommended product application and the product's characteristics, the potential environmental exposure is: Moderate

If released into the environment, see CERCLA/SUPERFUND in Section 15.

13. Disposal considerations

If this product becomes a waste, it is not a hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA) 40 CFR 261, since it does not have the characteristics of Subpart C, nor is it listed under Subpart D.

As a non-hazardous waste, it is not subject to federal regulation. Consult state or local regulation for any additional handling, treatment or disposal requirements. For disposal, contact a properly licensed waste treatment, storage, disposal or recycling facility.

14. Transport information

The information in this section is for reference only and should not take the place of a shipping paper (bill of lading) specific to an order. Please note that the proper Shipping Name / Hazard Class may vary by packaging, properties, and mode of transportation.

Typical Proper Shipping Names for this product are as follows.

Land Transport

Proper shipping name: product is not regulated during transport

Air Transport (ICAO/IATA)

Proper shipping name: product is not regulated during transport

Marine Transport (IMDG/IMO)

Proper shipping name: product is not regulated during transport

15. Regulatory information

This section contains additional information that may have relevance to regulatory compliance. The information in this section is for reference only. It is not exhaustive, and should not be relied upon to take the place of an individualized compliance or hazard assessment. Nalco accepts no liability for the use of this information.

NATIONAL REGULATIONS, USA

Osha Hazard Communication Rule, 29 CFR 1910.1200

Our hazard evaluation has found that this product is not hazardous under 29 CFR 1910.1200.

Cercla/Superfund, 40 CFR 302

Notification of spills of this product is not required.

Sara/Superfund Amendments And Reauthorization Act Of 1986 (Title III) - Sections 302, 311, 312, And 313

Section 302 - Extremely Hazardous Substances (40 CFR 355)

This product does not contain substances listed in Appendix A and B as an Extremely Hazardous Substance.

Sections 311 And 312 - Material Safety Data Sheet Requirements (40 CFR 370)

Our hazard evaluation has found that this product is not hazardous under 29 CFR 1910.1200.

Under SARA 311 and 312, the EPA has established threshold quantities for the reporting of hazardous chemicals. The current thresholds are: 500 pounds or the threshold planning quantity (TPQ), whichever is lower, for extremely hazardous substances and 10,000 pounds for all other hazardous chemicals.

Section 313 - List Of Toxic Chemicals (40 CFR 372)

This product does not contain substances on the List of Toxic Chemicals.

Toxic Substances Control Act (TSCA)

The substances in this preparation are included on or exempted from the TSCA 8(b) Inventory (40 CFR 710)

Food And Drug Administration (FDA) Federal Food, Drug And Cosmetic Act

When use situations necessitate compliance with FDA regulations, this product is acceptable under : 21 CFR 176.170. Components of paper and paperboard in contact with aqueous and fatty foods and 21 CFR 176.180 Components of paper and paperboard in contact with dry foods.

Product is limited to a maximum of 2% of paper or paperboard as an adjuvant in the making of paper and paperboard.

Federal Water Pollution Control Act, Clean Water Act, 40 Cfr 401.15 / Formerly Sec. 307, 40 CFR 116.4 / formerly Sec. 311

Components listed under this regulation may be present at trace levels.

AFR101

Material safety data sheet

Clean Air Act, Sec. 112 (Hazardous Air Pollutants, as amended by 40 CFR 63), Sec. 602 (40 CFR 82, Class I and II Ozone Depleting Substances)

This product may contain trace levels (<0.1% for carcinogens, <1% all other substances) of the following substance(s) listed under the regulation. Additional components may be unintentionally present at trace levels.

Substance(s)	Citations
Acrylamide	Sec. 112

California Proposition 65

This product contains no listed substances known to the State of California to cause cancer, birth defects or other reproductive harm, at levels, which would require a warning under the statute.

Michigan Critical Materials

Substances listed under this regulation are not intentionally added or expected to be present in this product. Listed components may be present at trace levels.

State Right To Know Laws

Substances listed under this regulation are not intentionally added or expected to be present in this product. Listed components may be present at trace levels.

International Chemical Control Laws

Canadian Environmental Protection Act (CEPA)

The substance(s) in this preparation are included in or exempted from the Domestic Substance List (DSL).

Australia

All substances in this product comply with the National Industrial Chemicals Notification & Assessment Scheme (NICNAS).

China

All substances in this product comply with the Provisions on the Environmental Administration of New Chemical Substances and are listed on the Inventory of Existing Chemical Substances China (IECSC).

Europe

The substances in this preparation have been reviewed for compliance with the EINECS or ELINCS inventories.

Japan

All substances in this product comply with the Law Regulating the Manufacture and Importation Of Chemical Substances and are listed on the Existing and New Chemical Substances list (ENCS).

Korea

All substances in this product comply with the Toxic Chemical Control Law (TCCL) and are listed on the Existing Chemicals List (ECL)

New Zealand

All substances in this product comply with the Hazardous Substances and New Organisms (HSNO) Act 1996, and are listed on or are exempt from the New Zealand Inventory of Chemicals.

Philippines

All substances in this product comply with the Republic Act 6969 (RA 6969) and are listed on the Philippines Inventory of Chemicals & Chemical Substances (PICCS).

16. Other information

Due to our commitment to Product Stewardship, we have evaluated the human and environmental hazards and exposures of this product. Based on our recommended use of this product, we have characterized the product's general risk. This information should provide assistance for your own risk management practices. We have evaluated our product's risk as follows:

* The human risk is: Low

* The environmental risk is: Moderate

Any use inconsistent with our recommendations may affect the risk characterization. Our sales representative will assist you to determine if your product application is consistent with our recommendations. Together we can implement an appropriate risk management process.

This product material safety data sheet provides health and safety information. The product is to be used in applications consistent with our product literature. Individuals handling this product should be informed of the recommended safety precautions and should have access to this information. For any other uses, exposures should

be evaluated so that appropriate handling practices and training programs can be established to insure safe workplace operations. Please consult your local sales representative for any further information.

For additional information on the use of this product, contact your local Archer representative.

DISCLAIMER STATEMENT

This information is furnished without warranty, expressed or implied, as to accuracy or completeness. The information is obtained from various sources including the manufacturer and other third party sources. The information may not be valid under all conditions nor if this material is used in combination with other materials or in any process. Final determination of suitability of any material is the sole responsibility of the user.
