

Samurai®+

The Versatile Multi-Function Pipe Cutter

The Samurai®+ cutter is a multi- function hydraulic pressure operated mechanical tool for cutting various pipe sizes. The combination of Samurai®+ , a mechanical plug and anchor can set a permanent cement barrier, make multiple cuts and retrieve casing in same operation reducing overall time.

Benefits

- Multiple cuts
- Large bypass area
- Higher flow capability with cermic internals
- Multiple operations without extended knives
- Cementing abilities

Features

- Hydraulic pressure operated
- RIH knife lock
- Ball activation
- Big Bore 2 1/4" ID balanced piston

Specifications

Casing size	9 5/8"
Tool OD	212.7 mm / 8.375"
Minimum ID	52 mm / 2.047"
Max operating pressure psi [bar]	5000 [345]
Top Connection	NC50 BOX
Bottom Connection	NC50 PIN
Standard Knife Sweep	273 mm, [10.750"]
