

# SPEARHEAD®

Strong, extensive hangoff and pull capacity

The SPEARHEAD® system is designed to withstand increased hang off loads, or pull forces, whilst qualifying as a barrier plug. This system allows customers to combine two or more operations, using the SPEARHEAD® as an anchor before or after it has been set as a barrier.

## Benefits

- Saves operations time
- Saves operational cost
- Reducing rigsite handling, improving safety standards

## Features

- Extensive hangoff capability
- ISO 14310 certified
- Ability to pressure test above and below the plug

## Specifications

Sizes, inch	9 5/8" – 14"
Pressure rating, psi (bar)	5,000 – 7,500 [345- 517]
Temperature rating °F (°C)	39 – 302 [4 – 150]
ISO 14310 qualification	V0
Max hangoff klbs [tons]	661 [300]
