

# YARI®

## The Combinable Multi-Function Spear

The YARI® is designed to be run dormant while performing operations prior to activation and pulling of casing. The tool has torque and tensile capacity to efficiently cut and pull casing in the same string. The outer part of the string has been designed to mitigate risk of cement contamination.

### Benefits

- Maximizing the operational time
- Cut in tension abilities
- Easy release
- Cementing abilities

### Features

- Large bypass area
- Integrated pack-off
- Integrated swivel
- Ball activation
- Big bore

### Specifications

Casing size	9 5/8"
Tool OD	209,55 mm / 8.25"
Tool ID	50,80 mm / 2.00"
Top Connection	NC50 BOX
Bottom Connection	NC50 PIN
